Highlighted = a standout number: league top 25% or well above your average. Small number = difference from your average.

League percentiles (vs 5107 league game lines)

Vs my average: ▼ PIR -1.6

Maintain

- **Capitalizing on opportunities at the end of stints**: Demonstrated high efficiency at the end of game stretches with successful shooting (100% from three and 1/1 from the field, 3 points at the end of a stint). (Q2 07:14)
- **Rebounding and defensive activity**: Secured 4 rebounds and precise defensive plays (1 steal and 1 block) in a short span of 13:22 minutes. (Q1 01:19, Q4 05:59)

Improve

- **Shot selection and driving accuracy**: Finished with 1/3 on two-pointers (33%), including 2 misses under the paint that resulted in below-average point production compared to your career average (5 points vs. 8.2 average). (Q1 02:29, Q4 09:41)
- **Turnover control under pressure**: A dribbling turnover in the final quarter that contributed to reducing the team's lead from 11 to 10. Action: Keep passes short and simple instead of unnecessary dribbling against pressure. Target: Zero turnovers in crunch time minutes. (Q4 08:14)
- **Early foul management**: Committed a personal foul that sent the opponent to the free-throw line in the 4th quarter, which disrupted the team's defensive rhythm. Action: When defending the ball handler in crucial quarters, maintain arm's length without unnecessary contact. Target: No more than one foul per game. (Q4 08:10)

Weekly Drills

1. **Biggest Leverage:** Practice finishing drives in the paint against physical contact to raise your 2-point shooting percentage above 50% in upcoming games.
2. Practice key passes out of the pick-and-roll to raise your assist average (1 in the current game vs. 3.7 in your career).
3. Practice one-on-one defense without active hands to minimize the risk of unnecessary fouls in the final minutes.
