

Daniel Gauta

Preseason Game · SF (Wing) · 25 minutes · Elitzur Yavne vs. Maccabi Rehovot · Away Game · Loss 64:92 · 2026-10-04

The data was cross-referenced with official play-by-play and video reports.

Analysis Summary

High efficiency with a PIR 26 at the 91st percentile, based on capitalizing on opportunities in the paint and creating plays for teammates. PIR 26 · PIR 91st percentile · High offensive output at the 91st percentile accompanied by efficient game management.

Game Snapshot

MIN 25	PTS 15	REB 5	AST 7	STL 2	BLK 0
PIR 26	TOV 3	PF 0			

Highlighted = a standout number: league top 25% or well above your average. Small number = difference from your average.

League percentiles (vs 5050 league game lines)

PIR		91
Points		78
Rebounds		68
Assists		94
Steals		85
Blocks		40
Minutes		61
Turnovers		17
Fouls		93

Maintain

- Accurate finishing at close and mid-range with **71%** (5/7) on 2-point field goals, indicating correct shot selection against the opponent's defense (Q1 07:51, Q3 06:05).
- Prominent team passing ability with **7** assists, placing you in the 94th percentile in the league for creating opportunities for teammates (Q4 02:20, Q4 01:09).

Improve

- Inaccuracy beyond the arc with **0%** (0/3) on three-pointers and **5** total field goal misses, which hurt the team's offensive spacing (Q1 04:30, Q3 07:37). Action: Avoid shots from beyond the arc in pressure situations and focus on drives to the basket. Target: Maintaining a minimum of 33% outside shooting on a volume of up to 2 shots per game.
- Concentration in passing the ball leading to **3** turnovers (including an offensive foul), which stopped offensive momentum in critical minutes (Q2 01:07, Q4 00:47). Action: Release the ball from your hand faster in transition to the half-court and maintain a safe distance from defenders while dribbling. Target: Reducing turnovers to no more than a single turnover per half.

This Week's Practice

1. **The Biggest Leverage:** Practice mid-range and three-point shooting out of movement at a volume of at least 50 mobile practice shots in every training session, with the goal of raising field goal percentages above 71% even outside the paint.
2. Perform passing drills under defensive pressure in tight spaces to lower the number of turnovers from an average of 3 down to just 1 for the next game.
3. Improve positioning in individual and team defense to maximize your contribution to defensive rebounding and increase the steal percentage above the 85th percentile.
