Vs my average: ▼ **PIR -6.4**

Maintain

- **Capitalizing beyond the arc:** You shot 2 of 3 from three-point range (67%), showing high efficiency when given open shooting opportunities (Q3 05:13, Q4 02:20).
- **Defensive rebounding involvement:** You contributed 2 defensive rebounds that helped stop the opponent's transition attacks during your stints (Q2 00:55, Q3 06:43).

Improve

- **2-point shot volume:** You finished with 0% (0/2) from the 2-point range and missed one layup (Q3 05:40), which hurt your overall efficiency and resulted in minus 3.6 points below your career average. Action: Increase body usage when driving to the paint and raise the contact threshold against the opposing defense. Target: Finish at least 45% of two-point shots in the next game.
- **Playmaking involvement:** You finished with 0 assists in 17 minutes, a figure lower than your career average (1.6). Action: Instead of solely seeking your own shot at the end of a stint, kick the ball out to an open player beyond the arc when the defense collapses on you. Target: At least 2 assists in the next game.
- **Early foul discipline:** You committed an early foul in the third quarter (Q3 07:32) that limited your defensive aggressiveness later in the stint. Action: Maintain a right-arm's length distance from the ball handler without creating unnecessary physical contact in high positioning. Target: No more than one foul in the entire game.

This Week's Drills

1. **Biggest leverage:** Practice finishing drives in the paint against physical resistance to raise 2-point shooting percentages (Target: Minimum 2 two-point field goals in individual practice).
2. Work on passing out of drives to perimeter shooters to create easy points for the team (Target: At least 5 spot-up passes in practice).
3. Practice clean defensive stance without creating unnecessary contact leading to early fouls (Target: 0 fouls in 10 minutes of individual defense drill).
