To Maintain

- **High efficiency in finishing 2-pointers:** You made 5 out of 6 attempts for 2 points (83%), including layup finishes and a Tip-in at critical moments in the first half (Q1 05:15, Q1 03:01, Q1 00:21, Q2 00:07). This efficiency in the paint allowed the team to maintain a high scoring pace.
- **Turnover-free playmaking and shot creation:** You dished out 4 assists (league percentile 79) without a single turnover over 25 minutes of play (Q1 09:10, Q1 04:06, Q3 08:59, Q3 04:39). Your calculated decision-making directly contributed to a plus-minus rating of +23 (100th percentile on the team roster).

To Improve

- **Free throw shooting percentage:** You converted only 1 out of 4 shots (25%). The three misses from the line (Q1 06:53, Q1 00:21) cost the team 3 secure points in the first quarter and hindered the ability to translate drawn fouls into points on the board.
- **Efficiency from beyond the arc:** You recorded just 25% from three-point range (1 out of 4 attempts) (Q1 00:41, Q2 03:53, Q3 06:46). As a guard-forward who is required to space the floor, these three misses allowed the opponent's defense to pack the paint and disrupted offensive flows.

Weekly Practice

1. **The biggest lever:** A 25% (1/4) free throw percentage in the game requires stabilizing the shooting mechanics under pressure. Action: Perform 60 free throws at the end of every practice this week, where each miss triggers a recovery run, to simulate game fatigue conditions. Target: Reaching at least 75% in the upcoming games.
2. Improving three-point shooting percentage from beyond the arc (SG position). Action: Practice 100 catch-and-shoot shots from five different spots on the arc every day this week, emphasizing a quick release. Target: Reaching 35% or higher on a volume of at least 5 attempts per game.

3. Preventing early defensive fouls during the stint. You committed an early personal foul (Q1 00:05) that sent the opponent to the line and disrupted your rhythm on the court. Action: Practice defensive stance and maintaining an arm's-length distance from the ball-handler without reaching in. Target: A maximum of one foul before halftime.
