Last 10 games · 2026-05-24 to 2026-10-28

Games analyzed: 10 | Position: Small Forward (SF) | Minutes per game: 21.4

Data was cross-referenced with the official Basketball Association box score (8 out of 10 games)

Analysis Summary

Nitai Rosenberg shows an offensive improvement trend in the current window, demonstrated by a rise to an average of 13.3 points in the last 3 games alongside a PIR of 14.7. This means higher offensive dominance in the backcourt, while simultaneously requiring a more precise balance of early foul accumulation to maintain game continuity.

A 10-game window was chosen because below that the average is too noisy (standard error of 3.2 points in 5 games vs. 2.2 in 10), and above it mixes different periods and roles.

Maintain

- Maintaining high efficiency at the 3-point arc with 50% (20/40) in the window, reflecting high shooting consistency alongside a low standard deviation in attempts.
- Maintaining a positive plus-minus balance of +7.9 on average in the window, indicating consistent contribution to the team's score while on the floor.

Improve

- Drawing early fouls in the first quarter: Nitai accumulated 7 fouls out of 20 in Q1 (35%), which hurt his playing time. Action: When defending the ball handler in the first quarter, keep an arm's length instead of initiating contact. Target: No more than 1 foul before halftime.
- Maximizing passing ability under pressure: Assist average stands at only 1.3 in the window (27th percentile). Action: When driving to the paint, lift your head to spot an open player in the corner instead of forcing a finish. Target: Increase assist average to 2.0 per game.
- Defensive rebounding for the small forward position: Output of 3.5 rebounds per game (48th percentile). Action: Box out the offensive player with your body immediately upon an outside shot. Target: Raise the defensive rebound average to 4.5 per game.

3-Week Plan

1. **The Biggest Lever:** First-quarter foul management. A figure of 7 fouls out of 20 in Q1 limited playing time. Action: Maintaining an arm's length in opening defense. Target: No more than 1 foul in Q1.
2. Outside and inside shot distribution. A figure of 50% on 3s (20/40) alongside 64% on 2s (14/22). Action: Focus on drives to the basket in the first line and save 3-point shots for open situations only. Target: Maintain a minimum of 60% success in the paint.
3. Involvement in ball movement. A figure of 1.3 assists per game. Action: Returning ball movement within the offensive flow in the early seconds of the clock. Target: Achieve at least 2 assists in every game.
