To Preserve

- Offensive Rebounding & Glass Presence:** Secured 4 offensive rebounds and 3 defensive rebounds (7 total, top 82nd percentile in the league), outperforming your 4.0 career average (+3.0). Stints featured sustained second-chance creation, particularly during Q2 04:16 and Q2 03:43.

- **Stint Efficiency & Duration Balance:** Maintained an average stint length of 5.3 minutes across 3 rotations (Q2 08:34–02:53, Q3 10:00–02:36, Q4 04:55–02:13), keeping your total minutes precisely aligned with your 20.1 career benchmark (20 played).

To Improve

- **Scoring Efficiency & Shot Volume:** Recorded 0 points on 0/2 2-pointers and 0/3 3-pointers, resulting in your 37th best scoring performance of the season out of 38 games and a PIR of 0 (35th best). Missed pull-up and jump shots in Q1 (08:43, 05:41) and Q3/Q4 (Q3 07:58, Q4 02:46) cost the team spacing and contributed directly to an 86-89 loss.
- **Ball Security & Turnover Control:** Committed 3 turnovers via errant passing (Q2 08:20, Q2 02:59, Q4 02:16) that directly halted offensive momentum during tight scoring margins, placing you in the 17th percentile for ball protection.

Training Drills for the Week

1. **#1 - The Biggest Leverage Point:** 0 points from 5 field goal attempts on zero makes. Action: Practice catch-and-shoot rhythm shots from mid-range and drives off the wing rather than contested pull-ups. Target: Convert at least 40% of field goal attempts over the next 3 games.
2. **Passing Execution under Pressure:** 3 turnovers (Q2 08:20, Q2 02:59, Q4 02:16) during mid-stint possessions. Action: Drill two-touch passing and direct entry passes away from defensive traps. Target: Keep turnovers to 1 or fewer per game.
3. **Interior Finishing & Contact Absorption:** 0/2 on 2-point attempts despite strong offensive rebounding (4 offensive rebounds). Action: Practice quick gather-and-finish moves directly off offensive boards without lowering the ball. Target: Raise 2-point conversion rate above 50% on put-backs.
