Executive Summary

In his weakest quarter of games he produced only 1.5 on average, next to no measurable contribution, against 12.0 for the season and 28.5 on good nights. The average rests on some games, not all of them. This high-variance production highlights strong offensive ceiling paired with night-to-night volatility that requires consistent floor-raising through better foul management and shot selection.

Window Overview (Last 10 games)

Metric	Average	Last 3 Games	Trend	League Percentile
MIN	21.1	23.7	▲	39
PTS	13.1 (131/10)	18.7	▲	51
REB	4.5	5.7	▲	54

Metric	Average	Last 3 Games	Trend	League Percentile
AST	1.4	1.7	▲	76
2P%	58% (23/40)	86% (12/14)	▲	—
3P%	51% (25/49)	62% (8/13)	▲	—
TO	1.7	1.7	■	22
PF	3.4	2.7	▼	13
PIR	12.0	24.3	▲	53
±	4.6	6.0	▲	49

A window of 10 games was chosen because below this the average is too noisy (standard error 3.2 points in 5 games vs. 2.2 in 10), and above it mixes distinct periods and roles.

To Preserve

- **Elite 3-point efficiency on high volume:** Shooting 51% (25/49) from beyond the arc across the window, anchored by strong shot selection and spacing consistency.
- **Strong closing momentum and scoring peaks:** Peaking at 28.5 PIR on top nights with a recent 3-game average surging to 24.3 PIR and 18.7 points, demonstrating high offensive ceiling when fully integrated into the offense.

To Improve

- **Foul accumulation in the final quarter:** Accumulating 13 out of 34 personal fouls (38%) in the fourth quarter across 10 games, leading to defensive passivity and restricted floor time late in tight matches.
- **Low assist-to-turnover distribution volume:** Averaging only 1.4 assists against 1.7 turnovers (22nd percentile in TO control), indicating limited playmaking generation for a primary point guard role.
- **Inconsistent rebounding and defensive disruption:** Recording only 0.4 steals per game (29th percentile) despite solid 21.1 minutes, showing a lack of consistent point-of-attack ball pressure.

3-Week Action Plan

- 1. **Foul Discipline in Q4:** 13 out of your 34 fouls occurred in the 4th quarter, forcing defensive substitutions. Action: In defensive stance during the final 6 minutes, maintain arm-length distance without handsy reaching. Target: Maximum 2 personal fouls in Q4 per game.
- 2. **Playmaking Volume & Decision Making:** 1.4 assists and 1.7 turnovers reflect limited orchestrating output. Action: In pick-and-roll situations, look for the roller or corner shooter within the first 3 seconds of the clock. Target: Raise assist average to 2.5 per game while keeping turnovers under 1.5.
- 3. **Perimeter Shot Volume Expansion:** 51% (25/49) 3-point accuracy shows excellent touch that deserves higher offensive usage. Action: Actively seek 1 additional catch-and-shoot 3-pointer per quarter from the wings. Target: Increase 3-point attempts to 6+ per game while maintaining above 45% conversion.

Game-by-Game Breakdown

Date	Opponent	MIN	PTS	REB	AST	PIR
2026-04-17	Hapoel Haifa	24	20	3	0	16
2026-04-24	Maccabi Ma'ale Adumim	23	11	7	2	4
2026-04-28	Ace. Ashkelon	18	2	3	4	1
2026-05-08	Maccabi Petah Tikva Elitzur	12	9	0	0	4
2026-05-12	Elitzur Yavne	21	7	4	3	2

Date	Opponent	MIN	PTS	REB	AST	PIR
2026-05-15	Maccabi Haifa	24	16	5	0	14
2026-05-19	Maccabi Ma'ale Adumim	18	10	6	0	6
2026-05-24	Hapoel Safed / Galil Daniel	20	13	5	2	16
2026-05-27	Hapoel Haifa	23	20	5	3	27
2026-09-15	Elitzur Netanya	28	23	7	0	30

Highlighted cells = one of the player's top 5 performances this season in that metric (for fouls and turnovers, the lowest).
