

Nitai Rosenberg

Regular Season · Round 1 · S. Forward · 20 Min · Maccabi Rehovot vs Elitzur Yavne · Away Game · Win 71:66 · 2026-09-18

The data was cross-referenced against the official game sheet of the Basketball Association

Analysis Summary

PIR 3 · PIR Percentile 25 · Your 28th best game this season: A significant decrease in overall efficiency due to committing 4 fouls in 20 minutes and two critical turnovers, alongside a decrease in assists compared to your career average. Proper foul management and passing discipline will return you to your familiar efficiency level.

Game Snapshot

Min	PTS	2 Points	3 Points	FT	PIR
20 (+0.2)	9 (-0.8)	50% (2/4)	33% (1/3)	67% (2/3)	3 (-6.6)

Rebounds	AST	TO	PF	±
3 (Def 3, Off 0)	0 (-1.6)	2 (+0.4)	4 (+1.2)	-8

Bolded cells = Top 25% in the league in this metric.

To Maintain

- **Offensive aggressiveness at the start:** Quick utilization of opportunities in the first quarter, drawing fouls and successfully making a mid-range shot (Q1 08:12, Q1 05:11), which created the first points in transition.
- **Transition shooting and clutch finishes:** Scoring an important three-pointer to extend the lead in the second quarter and a controlled layup finish in the fourth quarter while the opponent was closing the gap (Q2 06:44, Q4 01:52).

To Improve

- **Early foul management in a stint:** Committing 3 personal fouls in just 3:25 minutes in the second quarter (Q2 09:44, Q2 08:16, Q2 06:19). The fouls disrupted the team's defensive flow and forced an early trip to the bench after a positive run.
- **Passing caution in crucial quarters:** 2 turnovers resulting from inaccurate passes (Q3 09:06, Q4 00:29). The turnover in the third quarter allowed the opponent to start a 15:7 run and led to a negative stint differential (-8).
- **Involvement in ball movement:** 0 assists in 20 minutes of play compared to a career average of 1.6. The lack of ball distribution from the wing position limited offensive options and lowered the efficiency rating to just 3.

Practice This Week

1. **The biggest leverage:** Practice maintaining an arm's length distance when defending wing drives and avoid reaching in that leads to whistles. The goal: No more than one foul in the first half of the next game.
2. Practice decision-making in transition passing under pressure (Drive & Kick). Perform 30 repetitions in practice of driving and making an accurate pass to the corner. The goal: 0 turnovers from inaccurate passes in the upcoming games.
3. Practice finishing in the paint with contact and improving stability from the free-throw line. Shoot 50 free throws at the end of practice while fatigued. The goal: Reach at least 80% from the free-throw line in a sample of 4 or more attempts.
