| vs My Average: Decreasing

To Preserve

- **Efficient Perimeter Conversion:** Shot 100% (1/1) from beyond the arc (Q2 02:26, pull-up jump shot), contributing directly to team spacing during the second-quarter

run (Q2 02:53, 37-28).

- **Defensive Net Impact:** Secured a +3 plus/minus differential in 12:10 minutes, anchoring perimeter pressure and collecting 2 defensive rebounds (Q1 02:38, Q1 01:34) alongside 1 steal (Q1 01:07).

To Improve

- **Restricted Area Finishing & Volume:** Shot 33% (1/3) on 2-point attempts, missing key drives and tip-ins (Q3 00:48, Q3 00:08) that cost Maccabi Rehovot crucial interior scoring during tight momentum shifts.
- **Playmaking Output:** Registered 0 assists against a career average of 4.0, restricting floor generalship and limiting offensive flow during short 4.1-minute rotation stints.
- **Foul Disruption Timing:** Committed 1 foul early in defensive rotation (Q2 08:34), conceding free throws and truncating rhythm at the end of the opening stint.

Weekly Training Plan

1. **#1 - The Biggest Leverage Point:** 2-point conversion rate dropped to 33% (1/3) inside the paint. Action: Practice 50 game-speed floaters and contested layups daily off pick-and-roll drives, keeping balance before elevation. Target: Raise 2-point conversion to 55%+ over the next 3 games.
2. **Playmaking & Vision:** 0 assists in 12 minutes against a 4.0 baseline. Action: Drill kick-out reads out of secondary penetration, focusing on weak-side corner targets before drawing help-defense. Target: Average at least 3 assists per 12-minute block.
3. **Foul Discipline:** 1 foul in 12 minutes halted momentum at Q2 08:34. Action: Maintain active arms and verticality on ball-handler containment without reaching across the body. Target: Zero defensive fouls committed in the opening 6 minutes of any stint.
