- **Maintaining presence in defensive rebounding:** You recorded only 2 defensive rebounds out of 4 in total (Q1 05:34, Q3 06:15), a figure lower than your career average (7.2), which gave the opponent second-chance opportunities under the basket.

Drill This Week

1. **The biggest leverage:** 2 turnovers in the 4th quarter (Q4 06:32) cost you 4 direct points to the opponent. Action: Practice passing the ball under high pressure and focus your gaze on an open target before passing in the final seconds of the possession. Goal: Zero passing turnovers in late quarters in upcoming games.

2. Only 2 defensive rebounds (Q1 05:34) hurt your control in the paint compared to your career average (7.2). Action: Practice boxing-out and proper physical positioning under the basket immediately upon an opponent's outside shot. Goal: At least 4 defensive rebounds per game.

3. 2 turnovers and 2 fouls (Q4 02:24) created unnecessary pressure at the end. Action: Practice quick decision-making under defensive pressure without making unnecessary contact in the final seconds of the stint. Goal: Maintain a maximum of 1 foul in each final stint.
