Maintain

- **High close-range finishing efficiency:** You finished with a 71% shooting rate on 2-pointers (5/7) with 15 total points (78th points percentile), precisely utilizing drives within your stints (Q1 07:51, Q3 06:05).
- **Playmaking and creating opportunities:** You dished out 7 assists (94th percentile) with efficient distribution across quarters, including a peak of 4 assists in the 4th quarter that led to critical scoring (Q4 02:47, Q4 01:09).

Improve

- **Managing outside shot volume:** You took 3 three-pointers without hitting the target (0/3, 0%), indicating a need to avoid shots outside your comfort range and focus quickly on drives.
- **Controlling turnovers under pressure:** You recorded 3 turnovers (17th turnover percentile), with 2 of them occurring in the 4th quarter under heavy minutes load in the final stint (Q4 01:51, Q4 00:47).
- **Load and focus at stint ends:** Your efficiency dropped at the start of stints (1/3 on 2-pointers) due to making decisions too quickly in the opening minutes of the segment (Q1 04:30, Q3 07:37).

This Week's Practice

1. **The Biggest Leverage:** Practice driving and finishing against a packed defense with a target of a minimum 60% success rate without a turnover within your first 3 drives in each stint.

2. Focus on making the second-read pass in the pick-and-roll to reduce your 3 turnovers, targeting a maximum of 1 turnover per game.
3. Completely avoid three-point shots outside your familiar volume, converting them into mid-range scoring or passes to an open teammate.
