This Week's Drills

1. **#1 - The Biggest Leverage:** Reducing passing turnovers. With 3 turnovers in the game and only the 17th percentile, practice decision-making against double-team pressure for 10 minutes in every individual workout. Target: No more than 1 turnover in the next game.
2. Practicing drive finishes in the paint and shot selection from close range. Given 0 of 2 on 2-pointers and a small forward position requiring drives, execute 50 shots from under the basket against contact in daily practice. Target: At least 50% success in the paint area in the next game.
3. Spacing management and looking for an open player before passing. Based on 3 passing turnovers, improve court vision technique in 3-on-3 small-sided drills. Target: Reduce passing turnovers to 0 in the first half.
