

Nitai Rosenberg

Regular Season · Round 2 · Small Forward · 20 MIN · Maccabi Rehovot vs Hapoel Hevel Modiin · Home · Loss 86-89 · 2026-09-23

Data cross-referenced with the official Israel Basketball Association box score.

Key Takeaway

PIR 0 · PIR Percentile 12 · 35th Best Game this Season: Offensively passive baseline performance offset by high-volume offensive rebounding work rate. Primary objective is converting second-chance possessions into high-percentage paint finishes rather than resetting perimeter touches.

Keep Doing

- **Elite Offensive Glass Crashing:** Generated 4 offensive rebounds in 20 minutes (Q1 06:14, Q2 04:16, Q2 03:43, Q2 03:03), placing in the 82nd percentile league-wide. Positioned effectively from the wing to track long rebounds and create immediate extra possessions.
- **Clean Defensive Discipline:** Recorded 0 personal fouls across 3 distinct stints totaling 20 minutes (94th percentile). Maintained verticality and position without yielding free throws or entering foul trouble.

Needs Improvement

- **Perimeter Shot Selection vs. Drive Volume:** Attempted 3 perimeter shots (0% 3P) and 2 two-point shots (0% 2P) with zero drawn fouls, converting 0 points from 5 field goal attempts (Q1 08:43, Q1 05:41, Q2 03:45, Q3 07:58, Q4 02:46). Settling for contested jumpers as a primary wing option yielded 0 points per possession and limited line visits.
- **Passing Security on Stint Transitions:** Committed 3 turnovers directly off poor passes (Q2 08:20, Q2 02:59, Q4 02:16), costing the team an estimated 6 transition points. Two turnovers occurred within 34 seconds of entering or exiting a stint, indicating a drop in decision-making clarity under pressure.
- **Efficiency and On-Court Impact:** Finished with a 0 PIR (-10.2 below career average of 10.2) and a -2 plus/minus in an 89-86 loss. Inability to convert 4 offensive rebounds into direct second-chance points stalled momentum during Q2 and Q4 execution windows.

This Week's Practice

1. **#1 - The Highest Leverage Lever: Paint Touch Attacking & Contact Finish:**
Drill 50 rim-attack reps daily from wing catches, prioritizing two-foot power stops and drawing contact instead of settling for pull-up jumpers. Target for next games: Minimum 4 paint field goal attempts or drawn fouls per game.
2. **Second-Chance Putback Decisions:** Practice immediate strong-side putbacks off offensive rebounds within 1.5 seconds of securing the ball, bypassing perimeter kick-outs. Target for next games: Convert at least 50% of offensive rebounds into direct field goal attempts or drawn fouls.

3. **High-Pressure Passing Progression:** Execute 100 live-defense passing reps under trap conditions, focusing on low-entry bounce passes and skipping high-risk perimeter feeds. Target for next games: Zero unforced passing turnovers.
