Keep

- **High-volume offensive capitalization**: You scored 23 points in 21 minutes of play (94th percentile in the league) while maintaining 100% from two-point range (3/3) and 57% from three-point range (4/7) (Q2 04:11, Q3 06:30).
- **Defensive aggressiveness and generating steals**: You recorded 4 steals (98th percentile in the league) and drew 4 fouls that contributed to your game pace and point generation from the line (Q3 04:34, Q4 00:52).

Improve

- **Drop in production at the end of stints**: The fatigue index showed a drop from 11 points at the start of a stint to 0 points at its end (0/1 from the field), which hurt team stability ahead of substitutions (Q3 00:26).
- **Critical consecutive turnover**: You turned the ball over on a poor pass that prevented completing a comeback in the third quarter, which cost the team direct momentum against the opponent (Q3 07:27).

This Week's Practice

1. **The biggest leverage:** Maintain a stable arm's length distance and avoid unnecessary contact in the first six minutes of the quarter to avoid accumulating 2 early fouls as happened (Q1 09:49, Q1 06:51). Target: No more than 1 foul by halftime.
2. Practice short passes under pressure to close out a long stint (average 7.3 minutes) to prevent the turnover (Q3 07:27). Target: Zero turnovers in the closing minutes of each stint.
3. Maintain a high shot volume from mid-range and three-pointers in accordance with your status as a small forward (SF) (4/7 from three), and avoid missed pull-ups in the final seconds of the quarter (Q3 07:50). Target: 50% or higher on shots beyond the arc on a volume of at least 6 shots per game.
