Regular Season · Round 27 · Point Guard · 27 minutes · Hapoel Migdal Jezreel vs Hapoel Eilat Astral · Home Game · Loss 90:100 · 2026-03-31

Data cross-referenced with the official Basketball Association box score

Analysis Summary

PIR 5 · PIR Percentile 34 · Your 27th best game: Game management was reflected in 5 assists to 3 turnovers, but offensive inefficiency and a below-career-average drop in key metrics hurt overall output.

Game Snapshot

League Percentiles: PIR 34 · Pts 54 · Reb 18 · Ast 86 · Stl 85 · Blk 40 · Min 69 · TO 17 · Foul 76 | vs. My Average: Decreasing

Maintain

- **Playmaking and Assists:** Contributed 5 assists (league percentile 86) with efficient distribution reflected in 3 assists in the fourth quarter, while connecting accurately with partners like Maxim Fuxman and Brandon Lee Walton Edwards (Q3 07:26, Q4 02:18).
- **Perimeter Defensive Activity:** Recorded 2 steals (league percentile 85) and demonstrated alertness in defending the ball-handler throughout the matchup (Q3 07:48, Q4 02:14).

Improve

- **Perimeter Shooting Efficiency:** Took 5 three-pointers and made only 1 (20%), a low metric that resulted in 4 unnecessary misses and made it difficult for the team during the fourth-quarter chase (Q1 08:19, Q4 01:20).
- **Ball Protection Under Pressure:** Committed 3 turnovers from poor passes that fueled opponent runs, including critical turnovers in the third and fourth quarters that prevented narrowing the deficit (Q2 03:05, Q4 06:17).
- **Capitalizing on Opportunities in the Paint:** Finished the game with 3/7 on 2-pointers (43%), recording a total of 8 field goal misses that brought your efficiency rating down to just 5 (Q3 09:09, Q4 00:06).

This Week's Practice

1. **#1 - Biggest Leverage: Shot Selection on Three-Pointers:** The data shows a volume of 5 three-point attempts with 20% success (1/5) resulting in 4 misses and hurting PIR (Q4 01:20). Action: Reduce perimeter shots in pressure situations and focus on drives to finish or pass (core point guard role). Target: Maintain at least 35% shooting on no more than 3 focused attempts.
2. **Managing Passing Turnovers:** The data shows 3 turnovers from inaccurate passes (Q3 06:41). Action: Use safer outlet passes and identify the opposing defender prior to releasing the pass. Target: Finish the next game with a maximum of one turnover.
3. **Finishing Drives in the Paint:** The data shows only 43% on 2-pointers (3/7) and 8 total field goal misses (Q4 00:06). Action: Practice layups and floaters with contact at rim height instead of difficult shots against set defense. Target: Reach at least 55% success on finishes from close range.
