Highlighted = a standout number: league top 25% or well above your average. Small number = difference from your average.

League percentiles (vs 5177 league game lines)

Turnovers	33
Fouls	9

Vs my average: ▼ PIR -2.5

Maintain

- **Volume and accuracy in the paint**: You scored 5 out of 10 2-point shots (50%) alongside 2 accurate 3-pointers (100% on 2 attempts) and drew 4 fouls, contributing to a high efficiency rating of 24 (90th percentile in the league) in 29 minutes of play (Q2 04:59, Q4 01:19).
- **High rebounding presence**: You grabbed a total of 10 rebounds (7 defensive and 3 offensive), a stat that ranks you in the 93rd percentile in the league and maintains your career average in this metric (9.5) while maintaining a positive plus/minus of 9 (71st percentile).

Improve

- **Early foul management**: You accumulated 4 personal fouls during the game, including an early foul in quarter 1 (Q1 09:27) and critical fouls in quarter 4 (Q4 06:30, Q4 04:36) that led to opponent free throws and cost the team unnecessary defensive pressure. Target: Keep an arm's length against the ball handler in the opening quarters and avoid generating unnecessary contact to drop down to a maximum of 2 fouls per game.
- **Reducing turnovers**: You recorded 2 critical turnovers (traveling and a bad pass) during high-pressure moments (Q2 02:57, Q4 05:51) that cost the team wasted possessions against a strong opponent like Maccabi Rehovot. Target: Pass the ball to the open guard within 2 seconds of receiving a post-up without over-dribbling, maintaining zero turnovers in the second half.
- **Accuracy in finishing near the rim**: You missed 5 field goals out of 10 2-point attempts (including critical misses at the end of the fourth quarter like Q4 04:53 and Q4 00:25), which prevented you from maintaining your seasonal scoring average (18.5 compared to 16 tonight). Target: Execute one body fake before any shot from the paint to create clean separation and finish with power against opposing bigs.

This Week's Practice

1. **The biggest leverage:** Practice decision-making in the post-up with an emphasis on releasing the ball within a second in double-dribble situations, to prevent the 2

turnovers recorded against pressure defenses and improve the number of assists beyond 3.

2. Practice vertical defense inside the paint without using hands, with the goal of reducing total fouls from 4 to no more than 2 personal fouls in 30 minutes of play.
3. Perform quick-finish drills in the paint following offensive rebounds (3 rebounds per game), with an emphasis on capitalizing on shooting percentages and avoiding the 5 field goal misses recorded against Maccabi Rehovot's defense.
