

Shahar Shalmon

Last 10 games · 2026-05-09 to 2026-09-15

Games in Analysis: 10 | Position: SG | Role: Shooter & Mid-Range Scorer

Data cross-referenced with official Israel Basketball Association box score (1 of 10 games).

Executive Summary

In his weakest quarter of games he produced only 0.5 on average, next to no measurable contribution, against 7.0 in the window and 15.5 on good nights. The average rests on some games, not all of them.

Shahar Shalmon exhibits consistent defensive ball-hawking and high shooting volume from two-point range, substantiated by a 69th percentile rank in steals and 58% 2-point efficiency (22/38). However, productivity drops significantly on off-nights, and perimeter shooting efficiency remains under-developed at 27% from deep (8/30).

Window Snapshot (Last 10 games · 2026-05-09 – 2026-09-15)

Metric	Average	Last 3	Trend	League Percentile
MIN	21.7	23.3	▲	53
PTS	7.2	10.3	▲	46
REB	4.4	3.3	▼	60
AST	1.3	1.3	■	42
2P%	58% (22/38)	62% (8/13)	▲	68
3P%	27% (8/30)	27% (4/15)	■	—
TO	0.8	0.3	▲	69

Metric	Average	Last 3	Trend	League Percentile
PF	2.9	3.0	▼	11
PIR	7.0	9.3	▲	38
±	4.4	-0.7	▼	75

A 10-game window was selected because shorter samples are too noisy (standard error 3.2 points in 5 games vs. 2.2 in 10), while longer periods mix different eras and roles.

Note: Please check "Background graphics" in your browser print dialog to preserve exact dark styling.

To Preserve

- Defensive Activity and Steals:** You rank in the 69th percentile for steals with 1.1 per game, peaking at 2.3 in your last 3 games and 5 steals on 2026-09-15. This high-activity anchor disrupts opponents consistently.
- Two-Point Finishing Efficiency:** You shoot 58% (22/38) from inside the arc across the window, rising to 62% (8/13) in your last 3 games, demonstrating reliable interior scoring when attacking the paint.

To Improve

- Perimeter Shooting Volume & Accuracy:** You shot 27% (8/30) from 3-point range across 10 games. As a shooting guard whose core role relies on outside shooting, this low efficiency dampens perimeter spacing; target increasing your clean catch-and-shoot 3-point efficiency to 33% (13/39) over the next window.
- Foul Accumulation Timing:** You committed 2.9 personal fouls per game with heavy concentration in the third quarter (11 of 29 total fouls), forcing early bench rotations. Target limiting fouls to no more than 1 per half through disciplined verticality.
- Free Throw Conversion:** You converted 50% (4/8) of your free throws across the window. Target raising your free throw conversion to 75% (6/8) through routine pre-shot mechanics.

3-Week Action Plan

- 2 personal fouls in the first 6 minutes of the 3rd quarter have repeatedly disrupted your playing rhythm. Action: On perimeter drives, maintain arm's length instead of reaching. Target: Maximum 1 foul before the 4th quarter.
- Your 3-point shooting stands at 27% (8/30) across 10 games. Action: Focus exclusively on rhythm catch-and-shoot corner attempts within your primary role. Target: Lift 3-point percentage to 33% in the next 3 games.

3. Free throw efficiency is at 50% (4/8). Action: Establish a mandatory two-dribble and breath routine prior to every foul shot. Target: 75% conversion rate over your next 10 attempts.

Multi-Season Evolution

Season	Competition	PTS	REB	AST	3P%
2025-2026	National League Cup	4	3	1	0% (0/1)
2025-2026	National League	270	159	50	31% (30/96)

Game-by-Game Breakdown

Date	Opponent	MIN	PTS	REB	AST	PIR
2026-05-09	Elitzur Ashkelon Ito	22	7	4	2	8
2026-05-15	M.k Wraps South	22	5	2	1	1
2026-05-19	M.k Wraps South	18	3	6	2	1
2026-05-24	M.k Wraps South	20	4	6	0	2
2026-05-27	M.k Wraps South	21	6	8	2	9

Date	Opponent	MIN	PTS	REB	AST	PIR
2026-05-31	Hapoel Nahariya	17	4	2	1	5
2026-06-04	Hapoel Nahariya	27	12	6	1	16
2026-06-08	Hapoel Nahariya	21	9	4	2	13
2026-06-11	Hapoel Nahariya	14	6	1	1	0
2026-09-15	M. Rehovot / Elitzur Netanya	35	16	5	1	15

Highlighted cells = one of the player's top 5 games this season in that metric (for fouls and turnovers, the lowest).
