Analysis Summary

The player exhibits consistent growth in scoring output and overall efficiency index within the window, with the PIR standing at 22.4 per game and a peak of 36 in the latest game. The numbers point to a significant contribution under the baskets alongside an increase in minute volume and fouls.

The trend is reflected in improved finishing metrics in the paint and rebounding, though tight control over foul management and turnovers in the opening minutes is required to maintain stability across all four quarters.

A 10-game window was selected because below that the average is too noisy (standard error of 3.2 points in 5 games vs. 2.2 in 10), and above it mixes different periods and roles.

To Maintain

- High finishing efficiency from the field: 90% (9/10) on 2-point shots within the window, a figure reflecting precise positioning and correct work near the rim.
- Consistency in defensive and offensive rebounding: An average of 7.6 rebounds in the window (rising to 9.7 in the last 3 games), with a peak of 13 rebounds in the last game.

To Improve

- First-quarter turnover concentration: 3 out of 5 turnovers in the window occurred in the first quarter (60% of turnovers), indicating a need for heightened alertness at the start of the game.
- Early foul trouble: 4 fouls were recorded in games from 2026-09-18 and 2026-09-27, limiting minute availability in key stretches.
- Free-throw volume: Free throw percentages stand at 75% (6/8) from a single game with an event log, and an increase in workload and drawing additional fouls in the paint is required.

3-Week Plan

1. **The Biggest Leverage:** 3 turnovers out of 5 total turnovers in the first quarter were recorded in games. Action: Execute simpler and safer passes in the first three minutes of

the game. Goal: Maintain zero turnovers in the first quarter in upcoming games.

2. 2 fouls recorded in the third quarter in the last game out of a total of 2 fouls in this quarter. Action: In one-on-one defense in the paint area, keep hands high and avoid creating unnecessary contact. Goal: Reduce the number of fouls in the third quarter to zero.
3. 6 free throws out of 8 attempts (75%) in the last game. Action: Practice free throws at a fixed game pace at the end of practices. Goal: Raise free throw percentages to 80% and above on at least 10 attempts.
