Maintain

- **Perimeter shooting volume:** You shot 40% from beyond the arc (2/5) against a weak opponent, contributing to floor spacing at the small forward position (Q1 07:33, Q2 00:18).
- **Free throw opportunity capitalization:** You made 2 out of 2 free throws, maintaining complete efficiency on contact (Q1 06:31).

Improve

- **Reduction of early fouls:** You committed 4 fouls in 20 minutes of play (9th league percentile), which limited your participation in the decisive minutes (Q1 03:13, Q4 02:48). Action: When defending the ball handler, maintain an arm's length instead of creating unnecessary contact. Goal: Finish a game with a maximum of 2 fouls.
- **Defensive rebounding involvement:** You contributed only 2 rebounds, below your career average (3.9), making it difficult to close out defensive sequences (Q1 04:55, Q4 01:28). Action: Box out your direct player immediately upon the opponent's shot. Goal: At least 4 defensive rebounds in the next game.
- **Minimizing turnovers in stints:** You recorded 1 turnover (traveling) within a sequence of minutes (Q2 00:58) that hurt team momentum. Action: Release the first pass within a second of receiving the ball under pressure. Goal: Zero turnovers in transition actions.

This Week's Practice

1. **The Biggest Leverage:** Practice set defense without active hands to drop below the threshold of 3 fouls per game.

2. Practice coming off screens with quick decision-making for passing to prevent traveling turnovers.
3. Perform defensive rebounding positioning drills with an emphasis on early contact against the opponent's wing players.
