

Nitai Rosenberg

Regular Season · Round 2 · S. Forward · 20 MIN · Maccabi Rehovot vs Hapoel Hevel Modiin · Home
· Loss 86-89 · 2026-09-23

The data was cross-referenced with the official Israel Basketball Association box score.

Analysis Summary

PIR 0 · PIR Percentile 12 · Your 35th best game of the season: High activity on the glass (7 REB, 3rd best) was offset by zero points on 0/5 FG and 3 turnovers. To elevate efficiency, focus on high-percentage drives to the rim and avoiding long-range secondary passes under pressure.

Game Snapshot

MIN	PTS	REB	AST	2PT	3PT	FT	TO	PF	PIR	±
20 (-0.1)	0 (-10.2)	7 (DEF 3, OFF 4)	1 (-0.6)	0% (0/2)	0% (0/3)	— (0/0)	3	0	0 (-10.2)	-2

League Percentiles: PIR 12 · PTS 5 · REB 82 · AST 36 · STL 25 · BLK 40 · MIN 41 · TO 17 · PF 94 | Vs My Average: Below career average in scoring and PIR, above average in rebounding.

To Preserve

- **Offensive Rebounding and Glass Aggression:** Secured 7 total rebounds, including 4 offensive rebounds (82nd league percentile, 3rd best REB performance of the season).

Demonstrated strong timing and positioning to create second-chance opportunities during Q1 (Q1 06:14) and Q2 (Q2 04:16, Q2 03:43, Q2 03:03).

- **Foul Avoidance and Defensive Discipline:** Played 20 minutes without committing a single foul (0 PF, 94th league percentile in foul avoidance). Maintained proper guarding positioning across all three stints without giving away free throws or entering foul trouble (Q2 08:34-02:53, Q3 10:00-02:36, Q4 04:55-02:13).

To Improve

- **Ball Security and Passing Precision Under Pressure:** Committed 3 turnovers on bad pass decisions (Q2 08:20, Q2 02:59, Q4 02:16) with only 1 assist in 20 minutes. These 3 unforced giveaways directly halted offensive flow and cost the team 3 full possessions in a narrow 3-point defeat (86-89).
- **Shot Selection and Finishing Efficiency as a Small Forward:** Finished with 0 PTS on 0/5 FG (0/2 2PT, 0/3 3PT) in 20 minutes, well below career average (10.2 PTS, 5th percentile). Failing to score or draw fouls on 5 field goal attempts deprived the offense of at least 10 potential points, particularly on late-clock perimeter shots (Q2 03:45, Q3 07:58, Q4 02:46).
- **Stint Execution and Crunch-Time Plus-Minus Impact:** Entered the final Q4 stint at 04:55 with a +2 lead (75-73) and exited at 02:13 trailing by -2 (79-81) after a missed 3PT (Q4 02:46) and a turnover (Q4 02:16). This negative 4-point swing in 2:42 minutes surrendered the lead in crunch time.

Weekly Practice

1. **#1 - The Biggest Lever: Ball Security on Wing Playmaking:** 3 turnovers on bad passes (Q2 08:20, Q2 02:59, Q4 02:16) cost 3 possessions in a 3-point loss. *Action:* In wing playmaking options, eliminate high-risk cross-court passes and prioritize simple chest/bounce passes to the top of the key or post. *Target:* Achieve a 2:1 AST-to-TO ratio and no more than 1 turnover per 20 minutes.
2. **Attacking Closeouts and Paint Finishing:** Shot 0/2 on 2PT and 0/0 FT (0 PTS vs 10.2 career avg). *Action:* As a Small Forward, focus on catch-and-rip drives toward the paint against aggressive closeouts rather than settling for contested perimeter jump shots. *Target:* Minimum 4 paint field goal attempts and 3+ free throw attempts per game.
3. **Late-Clock Execution and Stint Focus:** Conceded a 4-point negative swing during the final Q4 stint (Q4 04:55 to 02:13). *Action:* Run 2-minute crunch-time drill scenarios emphasizing ball security, set execution, and high-percentage shot selection under pressure. *Target:* Maintain a positive $\pm$ differential in all 4th-quarter stints.
