Highlighted = a standout number: league top 25% or well above your average. Small number = difference from your average.

League percentiles (vs 5252 league game lines)

Vs my average: ▲ **PIR +19.0**

Maintain

- High efficiency in 2-point shooting with 86% accuracy (6/7) and consistent scoring output throughout all stages of the game (Q1 03:21, Q2 01:05).
- Prominent offensive contribution with 18 points, 8 rebounds, and 4 assists in 27 minutes of play (Q1 03:53, Q4 04:28).

Improve

- Low 3-point volume at 33% (1/3), as perimeter shots do not generate sufficient production relative to the shooting guard position (Q1 02:27, Q4 03:05).
- Repeated turnovers during the game, totaling 3 turnovers and hurting the team's offensive flow (Q3 08:36, Q4 06:50).

This Week's Drills

1. **The Biggest Leverage:** Increase the volume of 3-point shots from catch-and-shoot drills on the perimeter, aiming for at least 5 attempts in the next game.
2. Practice maintaining short passes under defensive pressure to reduce turnovers from movement in the arc area.
3. Improve decision-making timing when passing the ball at the end of long stints, during which the shooting percentage dropped to 50%.
