League Percentiles: PIR 77 · Pts 75 · Ast 79 | vs My Average: Rising

Maintain

- **Precise conversion from mid-range and the paint:** You recorded 100% (3/3) on two-pointers (Q1 04:21, Q2 04:01, Q3 06:25), indicating smart shot selection at the small forward (SF) position.

- **Creating opportunities for teammates:** You dished out 4 assists (Q2 03:07, Q2 02:46, Q3 05:59, Q4 02:58), the result of unselfish play and excellent court vision that yielded 3 direct assists to Lamont West.

Improve

- **Early foul management:** You accumulated 2 personal fouls as early as the first quarter (Q1 05:52, Q1 02:06), which limited your defensive effectiveness and forced you to the bench. Action: When defending the ball handler in the first quarter, maintain arm's-length distance without creating unnecessary contact. Target: No more than one foul before halftime.
- **Defensive rebounding volume:** You contributed only 2 rebounds (Q2 03:10, Q2 02:48), a figure lower than your career average (4.0). Action: Establish position in the rebounding line immediately upon the opponent's shot before making physical contact. Target: At least 4 rebounds in the next game.

This Week's Practice

1. **The Biggest Leverage:** Practice defense without extended hands in the first 6 minutes of the game, aiming to maintain a clean sheet of zero early fouls. Target: Finish the first half with a maximum of one personal foul.
2. Practice boxing out for defensive rebounds immediately after opponent perimeter shots, while sealing the body of the opposing offensive player. Target: Grab at least 3 defensive rebounds in the next game.
3. Increase the volume of three-point shots off movement, building on your high shooting percentage (67%, 2/3), and take at least 4 three-pointers in the next game.
