

Nitai Rosenberg

Last 10 games · 2026-05-27 to 2026-11-06

Games analyzed: 10 | Position: Small Forward (SF)

The data was cross-referenced with the official Basketball Association box score (8 out of 10 games)

Analysis Summary

Nitai Rosenberg shows a distinct upward trend in efficiency and steal metrics in the current window, evidenced by an increase to 15.0 points and 18.0 PIR on average over his last 3 games. In practice, this means higher offensive contribution and stable shooting volume, alongside maintaining consistency in playing time.

Numbers by range

Window Overview (Last 10 games)

Metric	Average	Last 3 G	Trend	League Percentile
Minutes	21.4	21.7	▲	37
PTS	10.7	15.0	▲	56
REB	3.4	3.0	▼	48
AST	1.1	0.7	▼	34
2P%	62% (13/21)	71% (5/7)	▲	—
3P%	52% (21/40)	59% (10/17)	▲	—
Turnovers	0.9	0.7	▲	76
Fouls	2.0	1.3	▲	53
PIR	11.6	18.0	▲	52
±	8.2	14.3	▲	87

A window of 10 games was chosen because below that the average is too noisy (standard error of 3.2 points in 5 games vs. 2.2 in 10), and above it mixes different periods and roles.

Maintain

- **Outside and inside shooting efficiency:** Maintaining a high percentage of 52% (21/40) from three and 62% (13/21) from two throughout the window, with an improvement to 59% (10/17) and 71% (5/7) respectively in the last 3 games.
- **Maintaining game discipline:** A low average of 0.9 turnovers per game in 21.4 minutes, reflecting stable decision-making on offense and controlled fouls (2.0 per game).

Improve

- **Concentrating production in late quarters:** Nitai scores an average of only 4.0 points in the second half (2.2 in Q3 and 1.7 in Q4, out of a total of 102 points in the window), which reduces the offensive threat in clutch minutes. Action: Increase your involvement in running the individual offense and ensure establishing contact with the ball at the start of the third quarter. Target: Raise the second-half scoring average to at least 6 points per game.
- **Steal volume and individual defensive activity:** You recorded 0.6 steals per game in the window, with 7 out of 10 games recording no steals at all (except for 4 steals in the game against Elitzur Shomron). Action: Increase activity in the passing lanes

of the opposing team without making unnecessary contact. Target: Achieve at least one steal every 2 games on average.

- **Production in clutch minutes:** In the last 5 minutes of Q4 or overtime within a 5-point margin, you recorded 5 points in 5 games only and 2/6 from the field, alongside a true shooting percentage of 38.8%. Action: Focus on shot selection with more comfortable looks in your preferred areas (such as drives to the basket) instead of difficult shots under pressure. Target: Raise the true shooting percentage in clutch minutes to at least 50%.

3-Week Plan

1. **The biggest lever:** 2 fouls in the first 6 minutes of Q1 appeared in 1 out of 9 games, but early fouls hurt minute continuity. Action: When defending the ball-handler in the opening quarter, maintain arm's-length distance instead of initiating early contact. Target: No more than 1 foul before halftime.
2. Workload management and production in the third quarter: A figure of 2.2 points in Q3 shows a drop in pace. Action: Demand the ball in the post-up or via fast drives immediately upon starting the second half. Target: Score at least 3 points in Q3 every game.
3. Maintaining a low turnover metric: With only 0.9 turnovers per game, continue this line by making safe passes and avoiding unnecessary dribbling in congested areas. Target: Maintain a maximum of 1 turnover per game even under increased defensive pressure.

Per-Game Breakdown

Date	Opponent	MIN	PTS	REB	AST	PIR
2026-05-27	Hapoel Zefat	**23**	**20**	**5**	**3**	**27**
