Vs my average: ▼ **PIR -7.8**

To Keep

- **Absolute finishing on drives to the rim** (Q1 07:23, Q3 09:13, Q4 01:09): You recorded 100% on 2-pointers (3-of-3 layups), generating 6 efficient points in the paint and directly contributing to building a double-digit lead in the decisive quarter.
- **Turnover-free decision making** (14:56 game minutes): You completed an entire game without a single turnover (0 turnovers, 85th league percentile) alongside 1 steal (Q4 01:13) and 1 assist (Q1 06:37), keeping positive possessions for the team while on the floor.

To Improve

- **Early foul trouble shortening stints** (Q2 07:24, Q2 05:03, Q3 09:48, Q3 08:12): You committed 4 fouls in just 14 minutes (9th league percentile, a rate of a foul every 3.7 minutes). Two quick fouls in the second quarter and two more within 1:48 minutes at the start of the third quarter forced the coach to bench you, shortening your average stint to just 3.1 minutes, and handed Ironi Nahariya direct free throws that narrowed the lead to 42:41.
- **Shooting efficiency beyond the arc and shot selection** (Q1 05:04, Q2 07:29, Q2 04:45, Q3 09:30, Q4 00:44): You shot 0-for-5 from beyond the arc (0%), a figure directly contributing to a 0 efficiency rating (PIR 0 vs. career average of 7.8). Those five field goal misses represented 5 possessions ending without points, whereas every 2-point shot of yours produced a basket.
- **Complementary stats output at the wing position** (14:56 minutes): You grabbed only 1 rebound (defensive) throughout the entire game compared to a career average of 4.1 (a drop of 3.1 rebounds, 18th league percentile), which reduced your overall impact on transition plays and prevented additional PIR points.

Weekly Practice Focus

1. **Biggest leverage point:** 4 fouls in 14 minutes (9th percentile) cut your playing time to 14 minutes compared to a career average of 18.8 minutes. Action: Practice defending in

a low stance, closing off drive lanes without reaching in, and avoiding unnecessary contact during clock stoppages or opponent shot attempts. Target: No more than 2 personal fouls per game in 20 minutes of floor time.

2. 0-for-5 from beyond the arc (0 points from 5 attempts) pulled your overall efficiency down to PIR 0. Action: Practice 3-point shots in Catch & Shoot situations at game speed off screens, and prioritize driving to the paint (where you recorded 3-of-3) when the initial shot isn't completely open. Target: Reach at least 35% from beyond the arc on a volume of 4 or more attempts.
3. Just a single rebound in 14 minutes (3.1 rebounds below career average). Action: Conduct daily box-out drills for defensive rebounding from the wing position as soon as the opponent releases the shot, followed by pushing into transition offense. Target: Minimum 3 rebounds in the next game.
