League Percentiles: PIR 12 · PTS 5 · REB 82 · AST 36 · STL 25 · BLK 40 · MIN 41 · TO 17 · PF 94 | vs. Career Average: Down

To Maintain

- **Elite Rebounding Impact:** Secured 7 total rebounds (4 offensive, 3 defensive), ranking as your 3rd best rebounding game of the season (82nd percentile). Aggressive positioning on the offensive glass (Q1 06:14, Q2 04:16, Q2 03:43, Q2 03:03) consistently generated vital second-chance opportunities for the team.
- **Defensive Discipline & Foul Management:** Committed 0 personal fouls in 20 minutes of play (94th percentile). This disciplined defensive presence allowed you to stay on the floor during crucial stretches without gifting the opponent free-throw opportunities.

To Improve

- **Ball Security & Passing Accuracy:** Recorded 3 turnovers, all resulting from bad passes (Q2 08:20, Q2 02:59, Q4 02:16). The final turnover at Q4 02:16 occurred during a tied game (79-79), leading directly to an opponent possession and go-ahead basket that contributed to the 86-89 loss.
- **Offensive Efficiency & Shot Selection:** Finished with 0 points on 0/5 shooting (0/2 2PT, 0/3 3PT), representing a significant -10.2 point drop from your career average (10.2 PTS). Perimeter misses (Q2 03:45, Q3 07:58, Q4 02:46) allowed defenders to sag off, reducing floor spacing for teammates in a tight 3-point defeat.
- **Late-Game Execution:** During your final stint (Q4 04:55 to 02:13), you entered with a +2 lead (75-73) and exited down by 2 (79-81). An empty possession from a missed 3-pointer (Q4 02:46) followed by a bad-pass turnover (Q4 02:16) cost the team critical momentum in crunch time.

Weekly Practice

1. **#1 - The Greatest Leverage: Live-Dribble Passing & Playmaking.** Practice situational passing drills against active deflections and double-teams to eliminate bad-pass turnovers (Q2 08:20, Q2 02:59, Q4 02:16). Target: 0 bad-pass turnovers in the next game.
2. **Catch-and-Shoot Mechanics & Perimeter Spacing.** Work on pre-catch footwork and shot preparation from the wing. Analyze game film of missed long-range attempts (Q2 03:45, Q3 07:58, Q4 02:46). Target: Convert at least 35% of 3-point attempts on a minimum of 4 shots in the next match.
3. **Offensive Rebound Putbacks & Post Finishes.** Capitalize on your elite offensive rebounding (4 offensive rebounds) by practicing quick, balanced finishes around the rim. The data shows 0/2 on 2-point attempts. Target: Complete at least 1 second-chance putback or assist off an offensive board next game.
