To Maintain

- Inside finishing and paint efficiency: 83% for 2 points (5 out of 6 field goal attempts), including transition points, cuts, and fast breaks (Q1 05:15, Q1 03:01, Q1 00:21, Q2 01:26, Q2 00:07). This figure significantly exceeds career average (14 points vs 6.2).
- Decision making and clean ball handling: 4 assists to 0 turnovers in 25 minutes of play (Q1 09:10, Q1 04:06, Q3 08:59, Q3 04:39). A perfect AST/TO ratio that placed you in the 85th percentile in the league in turnover prevention and led directly to a +23 plus/minus (100th percentile on the roster).

To Improve

- Free throw percentage: Only 25% (1 out of 4). This figure (Q1 06:53, Q1 00:21) directly deducted 3 points and reduced the overall Efficiency Rating (PIR) by 3 points from a potential 21 to 18.
- Shooting consistency from beyond the arc: 25% for 3PT (1 out of 4 attempts). 3 misses from beyond the arc (Q1 00:41, Q2 03:53, Q3 06:46) led to opponent transitions and halted run-away momentum in the second and third quarters.
- Fouling late in the shot clock and on shooting possessions: 2 fouls committed sent the opponent directly to the line (Q1 00:05, Q3 08:37). A foul 5 seconds before the end of the first quarter gave Zefat easy points without needing to apply pressure.

Weekly Practice Focus

1. **Biggest Lever:** Stabilizing free throw routine after exertion. The stat: 1 out of 4 from the free-throw line (25%). Action: Practice 4 sets of 10 free throws in every training session at a heart rate above 160 (immediately following full-court sprint intervals). Success metric: At least 75% free throws in the next game.
2. Accuracy and shot selection in Catch & Shoot 3-pointers. The stat: 25% 3PT (1 out of 4). Action: Perform 100 three-point shots from corners and 45-degree angles after receiving a pass on the move, maintaining foot balance and a straight lift. Success

metric: Achieve 38% or higher from beyond the arc on a volume of at least 4 shots per game.

3. Footwork and avoiding shooting fouls late in possessions. The stat: 2 personal fouls, both granting free throws to the opponent (Q1 00:05, Q3 08:37). Action: Practice closing drive lanes in individual defense while maintaining hands up (Wall-up) in the last 6 seconds of the shot clock. Success metric: Zero shooting fouls on an opposing player in the upcoming game.
