Maintain

- **Accuracy in the Paint:** You shot 100% (3/3) on two-point attempts, including critical baskets that maintained the team lead (Q1 07:23, Q3 09:13, Q4 01:09).
- **Zero Turnovers:** Responsible ball handling with zero turnovers throughout 14:56 minutes of play (Q1 08:02 - Q4 00:44).

Improve

- **Three-Point Volume and Accuracy:** You finished with 0% (0/5) from beyond the arc (Q1 05:04, Q2 07:29, Q2 04:45, Q3 09:30, Q4 00:44), which brought your perimeter attack

efficiency below your season average.

- **Early Foul Management:** You accumulated 4 personal fouls (including fouls drawn against you) already during the first and third quarters (Q2 07:24, Q2 05:03, Q3 09:48, Q3 08:12), which limited your continuous playing time to an average of 3.1 minutes per stint.

This Week's Drills

1. **The Biggest Leverage:** 0-for-5 from three with 5 missed field goals severely hurt your efficiency rating (PIR 0). Action: Increase catch-and-shoot perimeter shooting drills with an emphasis on balance upon dropping into a dribble. Goal: Achieve at least 35% accuracy on at least 6 shots from perimeter range in the next practice.
2. Perform on-ball defense without making unnecessary contact resulting in early fouls. Action: Maintain arm's length distance against the ball handler without reaching in within the first 6 seconds of stint opening (as happened in Q2 and Q3). Goal: Finish a game with a maximum of 2 personal fouls.
3. Capitalize on the middle of the stint (where you scored all 3 of your baskets with 100% success) to build offensive confidence through direct drives to the paint before shooting from distance. Action: Open every first stint with a layup drive or short pass. Goal: Generate at least 2 free throw attempts or easy baskets in the first quarter of upcoming games.
