Data cross-referenced with the official Basketball Association box score

Regular Season · Round 2 · Point Guard · 27 Minutes · Maccabi Rehovot vs Elitzur Shomron · Home Game · Loss 86:88 · 2026-10-23

Analysis Summary

PIR 23 · PIR Percentile 87 · Your #1 best game out of 30 recent games: Highly efficient game management that translated into 15 points, 7 assists with no turnovers, and a +14 plus/minus. However, accumulating 4 personal fouls and a drop in accuracy towards the end of stints hurt performance consistency.

To Maintain

- **Turnover-free game management:** Distributing 7 assists without a single turnover in 27 minutes of play (Q1 09:05, Q1 08:31, Q1 08:02, Q2 03:10, Q2 00:05, Q3 04:48, Q4 04:36), which directly generated 16 points for teammates.
- **Excellent shooting efficiency:** 67% from the field (4/6), including 2/3 from three-point range and 100% from the free-throw line (1/1), yielding 15 points on just 7 field goal attempts (Q2 01:34, Q3 09:47, Q3 06:06, Q4 06:59).

To Improve

- **Foul management and defensive discipline:** 4 personal fouls in 27 minutes · committing 2 fouls within 1:18 minutes in the third quarter (Q3 09:00, Q3 07:42) · led to a forced benching at Q3 04:48 with the team leading by just 3 points, and limited defensive aggressiveness in the decisive quarter (Q4 06:04).
- **Drop in output at the end of stints:** Drop from 100% shooting at the start and middle of a stint to 33% (1/3) at the end of a stint (average stint length 9.6 minutes) · misses at the end of stints (Q1 03:36, Q3 08:32, Q3 05:37) · cost 3 possessions that could have increased the lead by 6 points.

Weekly Practice

1. **Biggest lever:** 4 fouls in 27 minutes, including 2 quick fouls in the third quarter (Q3 09:00, Q3 07:42), interrupted momentum and forced cautious minutes management. Action: Practice maintaining an arm's-length distance while defending the ball-handler without reaching in. Target: At most 2 fouls per game in a volume of 25+ minutes.
2. Drop from 100% to 33% shooting at the end of 9.6-minute stints. Action: Practice decision-making and shooting under accumulated fatigue, and proactively request a substitution when game flow drops. Target: Maintain at least 50% from the field in the closing minutes of each stint.

3. Low 3-point volume of only 3 three-pointers (2/3, 67%). Action: Increase 3-point attempt volume off Pick & Roll situations when the defender goes under the screen. Target: Reach 5 three-point attempts per game.
