Maintain

- **High efficiency in outside shooting:** You made 3 three-pointers out of 5 attempts (60%) and contributed 9 points in 22 minutes on the court (Q1 03:47, Q1 03:13).
- **Positive plus/minus presence:** You finished the game with an official plus/minus rating of +16, maintaining stability in the point differential while you were on the floor (Q1 00:12, Q2 07:23).

Improve

- **Offensive volume and variety:** You recorded 0 two-point shots (0/0) and 0 free throw attempts, alongside 0 assists in 22 minutes on the court (Q2 02:57, Q2 01:07). Action: According to your role as a wing, increase drives to finish in the paint to generate additional attempts beyond the three-point arc. Target: At least 3 completed drives or free throw attempts in the next game.
- **Turnover control:** You turned the ball over 2 times during the game (bad pass and traveling) (Q1 00:05, Q2 06:49) which hurt offensive continuity against a strong opponent like Ironi Ashkelon. Action: Keep passes simple and ensure feet are set before starting a dribble. Target: No more than 1 turnover per game.

This Week's Practice

1. **The biggest lever:** Practice drives to the basket in the mid-range and paint with a stop before passing, with the goal of increasing your offensive action volume beyond just 3 three-pointers per game.
2. Practice ball security and passing under pressure in man-to-man defense to reduce turnovers from an average of 2 to a single turnover or fewer.
3. Practice off-ball movement to receive passes in comfortable shooting positions, while maintaining concentration during long stints (fact: average stint length 7.3 minutes).
