Nitai Rosenberg

Regular Season · Round 1 · SF (Small Forward) · 20:53 minutes · Maccabi Rehovot vs. Maccabi Kiryat Motzkin · Home Game · Win 93:85 · 2026-10-16

Data cross-referenced with the official Basketball Association box score

Analysis Summary

PIR 5 · PIR Percentile 34 · Rank 20 out of the last 30 games · Highlight: 40% from three. Your offensive contribution relied on efficiency in outside shooting on a controlled volume, but overall productivity was hindered by early foul accumulation and gaps in statistical metrics compared to your career average.

Game Snapshot

📊 Rank 20 of 30 recent games · Standout: 8 points

MIN	PTS	REB	AST	STL	BLK

Vs my average: ▼ PIR -4.2

Maintain

- **Accuracy in outside shooting on a controlled volume:** You made 2 out of 5 three-point attempts (40%), executing with precise opportunity-taking during critical moments of the game (Q1 07:33, Q2 00:18).
- **Discipline at the free-throw line:** You converted 2 out of 2 free throws without any misses at the stripe (Q1 06:31).

Improve

- **Early foul management:** You committed 4 personal fouls over 20:53 minutes of play, including 2 fouls in the final quarter (Q4 02:48, Q4 01:28), which limited your spatial presence on the court and hurt defensive stability. Action: When defending an offensive player, avoid direct contact when coming off screens and maintain an arm's length distance. Goal: Finish the game with a maximum of 2 personal fouls.
- **Bridging the efficiency rating gap:** You finished with a PIR of 5, compared to a career average of 9.2 (a -4.2 gap), primarily due to 3 missed field goals and 1 turnover. Action: Focus on mid-range shots and drives to finish in the paint before settling for outside jumpers. Goal: Achieve a minimum PIR of 10 in the next game.
- **Defensive rebounding involvement:** You contributed only 2 defensive rebounds compared to a career average of 3.9 (a -1.9 gap), placing you in the 33rd league percentile. Action: Establish early positioning under the rim immediately upon the opponent's shot and box out the attacking player. Goal: At least 4 defensive rebounds in the next game.

This Week's Drills

1. **Biggest Leverage:** Practice defensive stance without reaching in against the ball-handler in the opening seconds of a stint, aiming to reduce the foul count (4 fouls in the last game) and allow for longer floor time.

2. Practice drives to the paint against dense defense to increase 2-point shot volume (0 two-point shots in the last game).
3. Practice quick movement to defensive rebounding position immediately upon the opponent's outside shot release, to increase total rebounds above the average of 2.
