League Percentiles: PIR 77 · Pts 75 · Ast 79 | Vs My Average: Up

To Maintain

- **Scoring in the paint and from deep:** You maintained perfect efficiency on 2-point shots (100% from the field) and high accuracy beyond the arc (67%), leading to 14 points and helping maintain the lead (Q1 05:26, Q4 00:29).
- **Playmaking and passing:** You dished out 4 assists (79th percentile) and created points for teammates mostly in the middle of stints, with direct involvement in the offense (Q2 03:07, Q4 02:58).

To Improve

- **Early foul discipline:** You accumulated 2 personal fouls already in the first quarter within 6 minutes (Q1 05:52, Q1 02:06), which limited your playing rhythm and contributed to an early exit to the bench. Action: When defending the ball-handler in the first quarter, maintain arm's length without unnecessary physical contact. Target: No more than 1 foul in the first half.
- **Defensive rebound volume:** You contributed only 2 rebounds (33rd percentile), a figure lower than your career average (3.9). Action: During the opponent's outside shot, box out your direct player and establish early inside position. Target: At least 4 defensive rebounds in the next game.

This Week's Drills

1. **The Biggest Lever:** Practice defense without unnecessary contact in the first ten minutes of the game to reduce early fouls, aiming to maintain at least 25 consecutive minutes of play without foul trouble.
2. Work on repositioning and entry timing for defensive rebounding under the basket to increase your rebounding contribution to at least 4 per game.
3. Increase the volume of controlled mid-range shots and drives to the basket in accordance with the small forward role requirements, while maintaining shooting percentages above 50%.
